ACHSE
PRECISION IN MOTION

PRODUCT CATALOGUE

Fasteners

Bolts, Screws, Nuts, Washers, Pins and Rivets, supplied to your specification

Representative product images

WHAT WE DO

Achse supplies industrial fasteners the way an engineering company should. We read your drawing, confirm the **material, grade and finish**, arrange supply through our qualified manufacturing partners, and release each lot only after **Achse inspection**. For special parts, send us the drawing and we arrange it for you.

Bolts & Screws

Hex, flange, socket head, button head, stepped and weld bolts; self-tapping and Torx screws.

Nuts & Washers

Hex, flange and weld nuts; plain and spring washers.

Pins & Rivets

Dowel pins, hollow dowels and round head rivets.

To your drawing

Material, grade and finish confirmed against your drawing or standard.

Qualified partners

Backed by established manufacturing partners.

Inspected lots

Dimensional and visual checks by Achse before dispatch.

Special parts

Non-standard bolts, studs, pins and rivets made to your drawing.

BOLTS & SCREWS

Bolts & Fastening Screws

Hex head bolts

DIN 931 / 933 | ISO 4014 / 4017

Part and full thread hex bolts for general fastening.

Hex flange bolts

DIN 6921

Integral flange spreads load, so no separate washer is needed.

Socket head cap screws

DIN 912 | ISO 4762

Hex socket drive for compact, high-strength fastening.

Button head socket screws

ISO 7380

Low domed head with hex socket for a neat finish.

Stepped bolts

ISO 7379 OR TO DRAWING

Ground shoulder for pivots, guides and accurate location.

Weld bolts

TO YOUR DRAWING

Projection-weld bolts for fixing to sheet and plate.

Need a size, grade or finish not shown?

Send your drawing, sample or standard with quantity to srihari@achse.in or call +91 9900013667.

SCREWS & PINS

Self-Tapping Screws & Pins

CSK self-tapping screws

DIN 7982

Countersunk head, Phillips drive, for flush fastening in sheet metal.

Pan head self-tapping screws

DIN 7981

Phillips pan head with a self-tapping thread.

Torx countersunk screws

ISO 14581

Six-lobe drive for better torque transfer and less cam-out.

Torx security screws

TO YOUR DRAWING

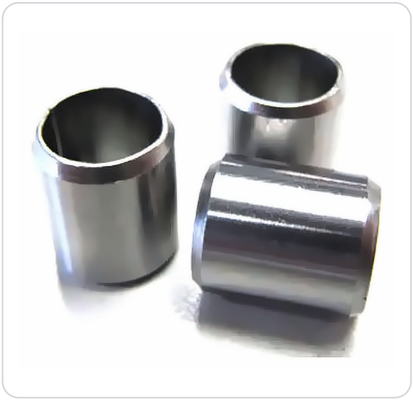

Pin-in Torx drive for tamper-resistant fastening.

Dowel pins

DIN 6325 | ISO 8734

Ground pins for accurate location and alignment.

Hollow dowels

TO YOUR DRAWING

Hollow sleeves for location in tooling and fixtures.

Representative product images

Looking for a special pin or screw?

Send your drawing, sample or standard with quantity to srihari@achse.in or call +91 9900013667.

NUTS, WASHERS & RIVETS

Nuts, Washers & Rivets

Hex nuts

DIN 934 | ISO 4032

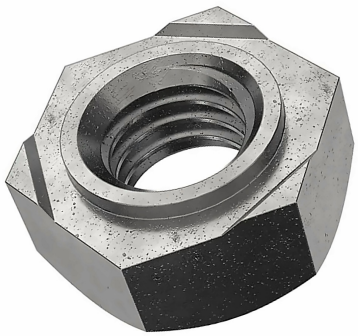

Standard hex nuts in a range of sizes and grades.

Hex flange nuts

DIN 6923

Serrated flange nuts that resist loosening.

Hex weld nuts

DIN 929

Projection-weld nuts for fixing to sheet and plate.

Plain washers

DIN 125 | ISO 7089

Flat washers that spread load under heads and nuts.

Spring washers

DIN 127

Split lock washers that resist vibration loosening.

Round head rivets

DIN 660

Solid round head rivets for permanent joints.

Representative product images

Need nuts, washers or rivets in bulk?

Send your drawing, sample or standard with quantity to srihari@achse.in or call +91 9900013667.

SPECIFICATIONS & ORDERING

Specified, Supplied, Inspected

What you can specify

Materials	Stainless steel, carbon steel and alloy steel
Finishes	Plain, zinc plated, black oxide and others on request
Grades	Property class as per your requirement, for example 8.8, 10.9, 12.9 or A2-70 / A4-80
Standards	IS, ISO, DIN, ASME or your own drawing

Availability depends on item and quantity, and is confirmed at quotation.

One responsibility, start to finish

From the first enquiry to the delivered lot, Achse is your single point of contact.

- Drawing and specification review before quotation
- Samples for approval before bulk supply
- Dimensional and visual inspection before dispatch
- Inspection report on request
- Special and non-standard parts built to your drawing

HOW TO ORDER

1. **Enquire** — Drawing, sample or standard, with quantity
2. **Review** — We confirm material, grade and finish
3. **Quote** — Price and lead time for your approval
4. **Sample** — Approval sample where needed
5. **Supply** — Inspected lots dispatched on schedule

Engineering-led supply

Achse is a precision machining and tooling company, so we read your fastener drawing the way a manufacturer does: fits, tolerances, thread and finish are checked before we quote, not after delivery.

Send us your requirement

We will respond with a quotation for your fasteners, with sample and inspection details.
